WEDLUXE GLITTERATI

STYLE FILES

"When we first learned of the *Literary Love* theme for this upcoming issue, we talked as a team at great length about how we might best bring this concept to life for *WedLuxe*! We discussed many of the more traditional and anticipated love stories but, after some deliberation, we decided to take a chance and bring to life the somewhat controversial yet modern romance story of *Fifty Shades of Grey* with our very own 50 SHADES OF PASSION. Our goal was to inspire the modern luxury bride to take something perhaps a little risqué and unexpected and adapt it to tell her own authentic love story."

"WE ARE EXCITED TO DEBUT THE STATEMENT mirrored chuppah structure, inspired by a four poster bed, created for this editorial by *Tim Mui* at *Reel Silks*. It was exquisitely embellished with rich colourful florals by *Evan Orion* and his team at *FLOWERZ* – and please note the ruched satin sheet runner that he created just for the occasion!"
